DETAILED ACTION

1. Applicant's arguments, filed on March 8, 2007, with respect to claims 10 – 22 have been fully considered and are persuasive. The rejection and objection of last Office action has been withdrawn.
2. After a search and thorough examination of present application, claims 10 – 22 (re-numbered as 1 – 13) are allowed over the prior art of record.

Reasons for allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art of record, alone or in combination, does not teach or fairly suggest the steps as recited in claims 10, 16 and 20, wherein steps including querying the annotation data store for the annotations that apply to the prior version of the data source; and adding a new entry into the annotation record of at least one of the annotations that is returned by the query, the new entry in the annotation record including the second data source version identifier and point information indicating coordinates of at least one part of the modified version of the data source that the at least one annotation returned by the query is meant to annotate, so as to associate the at least one annotation with point information corresponding to at least two versions of the data source.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Art Unit: 2162

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
